Gentlemen:—Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10-cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining in feesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use Narcoti-Cure, Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI - CURE, send to us for Book of Particulars free, or send \$5.00 for a bottle by

The school room is the key to advance ment in any line of work, so there the children should be under the very hest influence. The teacher makes the voter, makes the citizen and conscious men and women fitted to occupy any position in life should be the result of work.
